

TARGET PRACTICE

Littles edition

SUMMARY

Kids shoot stuff with nerf guns, a good time is had by all!

SUPPLIES

- 1 nerf gun – preferably a single shot gun that is easy for little hands to manipulate.
- Nerf ammunition
- Targets – empty solo cups work great!

SET UP

- Set the targets up far enough away from the shooters to make it a challenge but not too hard.

GAMEPLAY

1. Make sure they understand that we cannot shoot eh nerf gun AT anyone. Do not let them touch the nerf gun outside the game.
2. Have the kids stand in a single file line and take turns.
3. When they hit the target celebrate, encourage the class to clap.

SUGGESTIONS

- If you have access to a whiteboard and suction cup nerf darts you can draw things on the board to shoot which can be a lot of fun!
